

Located midway between Salisbury and Marlborough, Enford is situated in the Avon Valley with Salisbury Plain stretching for many miles around the Hall, offering wonderful walks in the area. Its secluded setting provides the ideal location for weddings, private parties and corporate events as well as being the perfect choice for sports and other outdoor activities.

Enford Village Hall, with its own 5 acre site, is located on the edge of this rural Wiltshire village. Facing south providing uninterrupted views across the River Avon. Completed in June 2009, the Hall has been funded by several years of fundraising within the local community and also by generous grants and donations from:

- BIG Lottery (Community Buildings) Fund
- The Football Foundation
- Kennet District Council & Wiltshire Council
- Viridor Waste Management Ltd
- Community Foundation for Wiltshire & Swindon
- Pewsey Area Community Trust
- DTI Low Carbon Buildings Programme
- National Lottery Community Sustainable Energy Programme
- Age Concern

We are extremely proud of the new Hall which offers a first class, multi purpose community building designed to provide entertainment, education and sporting opportunities for the residents of the area and for future generations.

The environmental impact of the Hall was of crucial importance when planning its construction. The ground source heat pump provides underfloor heating plus hot water for two sports teams with lowest possible CO2 emissions. Sunpipes, dual flushing WCs, timed aerated taps and showerheads, together with motion sensors for lighting, have also been installed.

HIRE CHARGES
